

## Custom training for your co-op board!

Directors play an important role in leading their co-op to success, education and training is key to achieving this. It's also one of the seven co-op principles:

*Housing co-ops offer education and training to members, directors and staff so that everyone can play a full role in the life of the co-op.*

CHF Canada delivers portable customized workshops directly to your co-op. These interactive workshops are tailored to your co-op's situation or specific needs and are scheduled when you want them.

Your co-op

- chooses the topic and focus
- suggests some dates, and
- books a meeting space.

CHF Canada provides a trained and knowledgeable workshop leader and all the workshop materials and handouts for a set fee.

CHF Canada fees:

- Half-day custom workshop: \$300 + applicable taxes
- Full-day custom workshop: \$600 + applicable taxes

Make the most of your custom workshop:

- include everyone! You and your co-op will benefit from participating whether you are thinking about running for the board, a new director or re-elected for another term.
- make board training a regular part of your planning cycle after each election and ensure you have budgeted for it.
- identify issues or challenging topics specific to your co-op to focus on in your training.
- get together with neighbouring co-ops to share a workshop and save costs

For more information about workshop topics, or to book a custom workshop contact:
